Internship Offer: Web/ C# Developer

Who we are and what we do:

Keluro is an innovative startup offering solutions to facilitate handling the vast amount of email that companies have to deal with on a daily basis. We are developing an application with native Microsoft Office 365 integration that enables users to effortlessly retrieve and share emails and the information contained therein.

At Keluro, which was founded in 2014, we do not only live the entrepreneurial spirit; we moreover already have a growing client base generating revenue. As we are currently rolling out our new application, you will be highly involved in its development during your internship. More specifically, you will have the chance to work on a real-life product realized using Single Page Application frameworks—a qualification particularly relevant in today's job market.

What we look for:

We are looking for a candidate to work directly under our CTO and co-founder. You must be eager to quickly learn new technologies and display commitment to excellence in all your work. You possess a high level of accuracy and thoroughness on top of your ability to work independently.

Required qualifications:

- General knowledge of web development: HTML/ CSS/ JavaScript
- Necessary foundations in computer science: Algorithms
- Mastery of at least one strongly statically typed, object-oriented programming language (e.g., C#, Java, C++)
- Good written English skills (good oral skills are a plus)
- Bonus: Knowledge of user interface design patterns (e.g., MVC, MVVM)
- Bonus: Advanced graphics skills or otherwise the mindset and skills needed to create attractive user interfaces

With native integration in Microsoft Office 365, Keluro is essentially built on a Microsoft technology stack. Below you will find several technologies with which you will be working. While we don't expect you to master any of these, we expect a steep learning curve when learning them.

- Git/ GitHub/ TeamCity
- Microsoft Office 365
- Angular.js (v1.x)
- Typescript
- C# .NET/ Asp.NET WEB API
- LESS CSS
- Microsoft Azure
- Office UI Fabric

Location, Remuneration and Application Process:

- Our offices are located in the 14th Arrondissement in Paris
- The salary depends on the duration of the internship and the candidate's profile

To apply, please send us your CV and Cover Letter via email at contact@keluro.com. We look forward to hearing from you!
